

INNOVATION AND ENTREPRENEURSHIP DEVELOPMENT CENTRE

Seethi Sahib Memorial Polytechnic College Tirur

ACTIVITY REPORT

2020-21

K E R A L A
STARTUP MISSION®

Government of Kerala

Kerala Start-up Mission is the implementing agency of Government of Kerala for entrepreneurship development and incubation activities in Kerala. KSUM has been promoting entrepreneurship development programs through IEDC Network right from Schools, Polytechnics, Engineering Colleges, Start-ups, etc. in the State.

KSUM is also the implementing body for the Kerala Technology Start-up Policy that supports start-up ecosystem by means of 9 components such as Infrastructure, Incubators and Accelerators, Human Capital Development, Funding, State Support, Governance, Public Private Partnership, Scaling Existing and Establishing New Incubators and Start-up-Bootup-Scale up model for moving fast from ideas to IPO.

KSUM activities are presently spread across the state of Kerala through around 275 IEDC Nodal Centres. IEDC Activities are of great impact among student community as a result of Workshops, Seminars, Hackathons, FabXL, FutureXL, Future Technology Workshops, Student Summits, Idea Pitching, Start-ups, etc. It is understood with high importance that the upcoming generations i.e., the student's community must be moulded to meet these requirements and they are truly benefitted by the Tech Seminars, Workshops, Hackathons, Project Contests, Idea Pitching Contests, etc. through the IEDC College network.

Principal	ABDUL NASAR KAIPANCHERRY
